“EVERY PATH UNVEILS A NEW PERSPECTIVE.”

Whenever we start the designing process of a new product, we always make sure that the beauty and authenticity is there. Our source of inspiration is pretty cool – as we follow the wonders of the land as we find there the essence of our existence.

The series of Glossy is full of depth, simplicity, density and the ethereal. Our collection brings the beauty and the power of nature to your spaces. We truly believe nature can transform the spaces into the reality which we have always dream of.

So we always take inspiration from nature. Designed to create a calm and serene environment along with showing class and character to living and working spaces of all surfaces, our tiles make a style statement allowing you to choose from a wide range of designs, textures, colors, and effects.

“FEEL UNIQUENESS AN EMBELLISHING AND THE CHARM.”

A story that adds new chapters every time. Hidden away in the varied, multi-faceted appeal of marble are stories from the past and present, pulsating with life. A fine line separates the artificial from the natural, when light spreads through and leaves its mark on surfaces strongly bonded with the living styles of the future.

The inspiration comes from Italian Living origin: the distinctive Tiles and the deep Fusion Effects, both crossed through by white veins and with a small-medium grain. The other colors start out from black, gradually shifting through dark and light grey to white. The subtle texture and veins, tempered with a very light white, reminiscent of the night sky in black, give the product a smooth, extremely sophisticated appearance.

A modern interior space featuring a large wall of square tiles with a complex geometric pattern of triangles and lines. The tiles are in two colors: a light beige and a medium brown. The floor is made of large, polished rectangular tiles in the same two colors. In the center, there is a reception desk made of the same tiles, with a dark wood countertop. To the right, there is a brown leather armchair with a grey cushion. In front of the chair is a round, white marble coffee table with a gold-colored metal base. The ceiling is white with several pendant lights hanging from it. The lighting is warm and ambient.

A modern kitchen interior featuring large, rectangular, light beige tiles with a natural stone pattern. The tiles are used for the walls and floor. On the left, there are dark grey kitchen cabinets with a built-in oven. In the center, a wooden countertop with a dark wood base is topped with a wooden cutting board, a bowl of fruit, and a small potted plant. Two modern bar stools with wooden seats and metal frames are positioned in front of the counter. Above the counter, several black, cylindrical pendant lights hang from the ceiling. The floor is made of the same large, light beige tiles.

A modern kitchen interior featuring large, rectangular, grey tiles with a natural stone pattern. The tiles are used for both the walls and the floor. The kitchen includes a central island with a dark countertop and a built-in cooktop. The island has a white, vertically-ribbed base. In the foreground, there is a dining table with a dark, reflective top and four green upholstered chairs with black frames. The background shows a kitchen sink area with a chrome faucet and a window with horizontal blinds.

A modern interior space featuring large, square, beige tiles with a polished finish. The tiles are used for both the walls and the floor. The wall tiles have a subtle, natural stone pattern. The floor tiles are highly reflective, showing clear reflections of the furniture and the ceiling. In the center, there is a reception desk with a white, multi-layered, stepped front and a dark wood base. To the left, a light gray sofa is partially visible, along with a potted plant in a white pot. To the right, another light gray sofa is visible. The ceiling has a modern, geometric light fixture with brass-colored branches and white cylindrical lights. A large window on the right side shows a cityscape.

REPRESENTATIVE OF
UNMISTAKABLE
INDIAN AUTHENTICITY
AND STYLE

MADE IN INDIA

Made in India isn't just style, design and excellence, it's a way of being. We identify with the values expressed by Indian ceramic tradition ethical code, which guarantee absolute compliance with labor regulations, and with the marks Made in India and which certify the quality of authentic Italian style.

WE CARE FOR NATURE

ENERGY OPTIMIZATION

- 

Efficient methane gas cogeneration plant
- 

Heat recovery from furnaces and cooling water
- 

CHP vapour recovery with 40% savings in methane gas
- 

100% LED lighting. 50% annual power savings

WASTE MANAGEMENT

- 

100% recycled raw and cooked waste
- 

99% waste sent to recovery
- 

100% recycled industrial water and 27% reduction in water consumption over the last 3 years
- 

100% recyclable packaging materials

ENVIRONMENTAL HEALTH

- 

Continuously operating purification and filtration systems
- 

RTO system to reduce harmful emissions and odours
- 

Automated Vertical Warehouse: 60% reduction in CO₂
- 

0% lead, cadmium, and other carcinogenic substances in products

SPECIAL MAINTENANCE

REMOVING GLOSSY GLAZE

Standard detergents that are available in the market sometimes contain waxes or polish additives that, wash after wash, deposit **glossy glaze** on the floor and causes annoying marks. These types of glazes can also settle on some joint grouts. When simply types of foods such as Coke, wine, water, etc., fall on the floor, they remove this type of glossy glaze and restore the **original appearance** of the tiles (a more opaque look). In the middle of the shinier floor, the areas without wax appear as opaque marks, but they are actually the only clean parts of the floor. In these cases, the following must be done:
1. First of all, remove the glossy glaze from the entire floor (see table below);
2. Then, for daily cleaning, use neutral detergents that do not contain wax or polishing glaze

NEVER USE: Waxing and impregnating agents - Acid or alkaline detergents - Abrasive pastes - Abrasive brushes or sponges.

RESIDUES TO BE REMOVED	TYPE OF DETERGENT	DETERGENT NAMES
glossy glaze	weak acidulous	tile cleaner pure (*)

(*) Do not follow the instructions on the package, just apply the pure detergent, leave it on for 5-10 minutes, rub it with soft pads (white, yellow) and rinse it thoroughly with water.

1.

Original Floor

2.

After cleaning detergents containing waxes.

2.

Simple foodstuffs (Coca-Cola, wine, water etc) can remove the bright patina. The original surface is more matt.

2.

Remove the patina with detergent (Faber tile cleaner, used neat), and use detergent without waxes for everyday cleaning.

CLEANING “AFTER THE INSTALLATION”

- Cleaning “after the installation” helps remove residues of grout-joints, cement and lime. This is obligatory at the end of the installation, for glazed tiles and unglazed tiles.
 - If the cleaning “after the installation” is not carried out properly or if is not carried out at all, is often a cause of marks that prevent the floor from being clean even if a good daily cleaning is performed.
 - Whenever is possible, especially for medium to large surfaces, it is advisable to use a single-brush machine with soft disks (white or beige).
 - cleaning cement-based grouts mixed with water.
- It is carried out with specific detergents based with buffered and diluted acids. The table below shows some of these detergents, which are easily available in the market.

INSTRUCTIONS ON HOW TO CLEAN “AFTER THE INSTALLATION”

- Clean 4-5 days after the grouting (the grout must be hardened); do not wait over 10 days. In addition to this period, the cleaning can become very laborious.
- Moisten the floor with water before cleaning. This way the groutings are soaked with water and the contact with detergents is reduced.
- Let the detergents operate for limited periods, hence rinse out with water as soon as possible.
- It must not be carried out if the tiled surfaces are very hot (i.e. exposed to the sun during very warm days); this must be avoided as the action of aggressive chemicals become very harsh.On the summer, proceed with the operation during the coolest period of the day.
- Make sure to always perform a precautionary test before using the product (on a tile that is not laid), especially for Lapped or Polished products.
- cleaning for epoxy, bi-component and reagent grouts In these cases the removal must be carried out immediately and carefully following the recommendations of the manufacturers, as these grout harden very fastly, even in a few minutes. Please carefully follow the cleaning mode specified by the manufacturer of the grout used; verify its effectiveness (backlight also) with a preliminary cleaning test before grouting the entire floor/wall.
- “Antislip” tiles that are made with rough and/or textured surfaces must be cleaned very laboriously. Therefore, it is advisable to clean “after the installation”, quickly and thoroughly, using a single-brush machine with disks white and beige.

LAYING INSTRUCTION

DRY LAYING ON GRASS

In the case of a grass surface, the paving should be laid dry without the use of adhesives. This installation technique is simple, ecological, and can be carried out without specialised personnel. This technique is ideal for rapid creation of elegant paths in public parks and private gardens.

LAYING ON GARVEL

The different installation methods make it possible to create complex spaces while ensuring visual uniformity even when working on diverse substrates. In the presence of a gravel substrate, the floor surface can be installed simply by placement of the tiles without the use of adhesives. This method streamlines the levelling procedure and also guarantees excellent stability. The solution allows the creation of decorative effects using gravel and pebbles of different particle sizes and colours.

LAYING ON SCREED WITH ADHESIVE

The technical characteristics of the glazed vitrified tiles are perfectly compatible also with sandy substrates. This makes the system especially suitable for public areas in the proximity of beaches and in beach bars. Resistant to the action of solar UV radiation and prolonged contact with salt. Impervious to wear caused by sand abrasion. In addition, the R11 A+B+C surface is an advantage for the safety of holiday makers. Installed completely dry, the tiles are the ideal practical and robust solution for seasonal businesses requiring periodic setup and removal operations, such as kiosks or temporary structures in general installed on beaches.

LAYING ON RAISED FLOOR

The Saans' 9mm glazed vitrified tiles are composed of pedestals to raise the floor surface with respect to the base level, resulting in the creation of an underfloor void that can be used to route electrical cables and pipework easily. This allows inspection of technical systems at any time and simple replacement of components if necessary. The system is assembled without adhesives. Dry assembly of the structure is extremely effective in applications where correct drainage is important.

Thank You
